Village of Wayne Lakes Maintenance Committee Meeting Minutes

April 27, 2026, 6:00 p.m.

Meeting called to order by Maintenance Committee Council Member at 6:03 pm.

Committee members present: Mrs. Berger, Mr. Campbell, Hans Stenke

Also present: Mayor Linda.

No comments from the public at this time.

The Spring Clean event was discussed. It was decided by the committee to request council approval for the event to take place when the dump is available for free to the village and to request the purchase of contractor trash bags to supply the residents with trash bags for the event. Future tire clean up event was discussed. It would take place in Sept., when the county allows for tire pick up.

Road sign fixtures will be inventoried; more will be ordered if needed, to complete road sign placements.

The need to mow several village properties was addressed.

It was determined that the recent fallen tree near Tecumseh would be taken care of by the end of May. There is a tree near the “eco bag” site that needs to be evaluated. It looks like it may fall on a house.

Roughly 20 goose nests have been addled.

The placement of speedbumps on West and East drive was discussed but not yet decided on.

Question from the public: Can residents purchase and place fountains in the lakes to promote healthier lakes? Per the mayor there is no ordinance preventing the placement of fountains by residents, and we appreciate them helping to care for our lakes.
